==========
COMMERCE GYAN — MASTER SLIDE DESIGN SYSTEM
NOTEBOOKLM SOURCE DOCUMENT (CLEANED & STRUCTURED)
==========

==========
1. OVERVIEW
==========

WHAT THIS SYSTEM IS:
The Commerce Gyan Master Slide Design System is a strict, deterministic, high-end UI and content generation framework for YouTube teaching slides. It is production-optimized, camera-safe, and designed for smart-board recording with a 4K PTZ camera.

WHAT IT IS USED FOR:
- Generating premium educational slides for Class 11–12 Commerce subjects (Accountancy, Economics, Business Studies, Statistics)
- Enabling AI systems (NotebookLM, ChatGPT, etc.) to produce slide decks autonomously with zero design improvisation
- Ensuring visual consistency across all Commerce Gyan YouTube content
- Maintaining camera-safe layouts during live smart-board recording sessions

CORE PHILOSOPHY:
- Every slide must feel like a premium, human-made product
- Clarity always takes priority over decoration
- No creative improvisation — only system execution

==========

2. GLOBAL DESIGN SYSTEM

==========

2.1 CAMERA SAFE ZONE (NON-NEGOTIABLE)

- The bottom-right 300×300px area of EVERY slide must remain 100% empty
- No text, icons, cards, images, or labels permitted in this zone
- This zone is reserved for the teacher's live camera overlay

---

2.2 HEADER SYSTEM (FIXED — EVERY SLIDE)

- Full-width bar at the top of every slide
- Height: 72px
- Background: #020617
- Left text: "Commerce Gyan | Be the best from the rest"
  Font: Montserrat Bold, 18pt, #E5E7EB
- Right text: "📞 9278569860 | 📍 Behind GD College, Begusarai"
  Font: Inter Medium, 14pt, #94A3B8
- Bottom divider: 1px solid — rgba(255,255,255,0.08)

2.3 BACKGROUND SYSTEM

RULE: Only cinematic dark gradients permitted. No flat or light backgrounds.

DEFAULT:
#020617 → #0B1220 (top-left to bottom-right) + subtle center radial glow

OPTIONAL ALTERNATE TONES:

Deep Maroon: #1A0F0F
Deep Teal: #0A1F1C
Deep Slate: #111827

TEMPLATE-LOCKED BACKGROUNDS (each template has one assigned background):

T1 — CORE THEORY
Base: #06111F
Gradient: #020617 → #0B1220 → #102033
Glow: Subtle green — rgba(34,197,94,0.10) behind left content zone
Feel: Focused, calm, intellectually sharp

T2 — CONCEPT + EXAMPLE
Base: #0B1220
Gradient: #08111D → #0F172A → #162033 (left to right)
Glow: Soft blue center-right — rgba(56,189,248,0.10)
Feel: Layered, explanatory, premium depth

T3 — COMPARISON
Base: #111827
Gradient: Left tinted #1A0F0F→#111827 / Right tinted #0A1F1C→#111827
Glow: Red left rgba(239,68,68,0.10) / Green right rgba(34,197,94,0.10)
Feel: Contrast, judgment, correction

T4 — GRID
Base: #0F172A
Gradient: #0B1220 → #111827 → #172033 (top to bottom)
Glow: Faint neutral blue — rgba(56,189,248,0.06)
Feel: Structured, systematic, organized

T5 — IMAGE + THEORY

Base: #0A1418
Gradient: #08131A → #0A1F1C → #0F172A (top-right to bottom-left)
Glow: Soft teal near image zone — rgba(20,184,166,0.10)
Feel: Visual, human, grounded

T6 — PROCESS
Base: #0B1324
Gradient: #08111D → #0F1B2E → #102033 (left to right)
Glow: Thin horizontal center-band — rgba(56,189,248,0.08)
Feel: Directional, process-driven, progressive

T7 — QUESTION
Base: #140F1F
Gradient: Centered radial-dark — #0B1220 → #1A1330 → #0B1220
Glow: Restrained violet-blue — rgba(96,165,250,0.10)
or rgba(139,92,246,0.10)
Feel: Alert, engaging, attention-holding

T8 — HIGHLIGHT / CTA
Base: #1A0F0F
Gradient: Centered emphasis — #120A0A → #1F1410 → #0B1220
Glow: Warm amber-orange rgba(250,204,21,0.10)
+ soft orange rgba(249,115,22,0.08)
Feel: Strong, memorable, high-impact

GLOBAL BACKGROUND RULES:
- Never reuse the same background across different templates
- No visible texture noise behind text
- Glow must always be subtle — never overpowers content
- Background must preserve face visibility for recording

2.4 TYPOGRAPHY SYSTEM (LOCKED)

Title: Montserrat Bold, 44pt, Left-aligned
Subheading: Montserrat Semi-Bold, 30pt
Body: Inter Medium, 26pt
Small: Inter Regular, 20pt

NOTE: In 4K scale mode → Title 42–48pt | Body 24–28pt

2.5 COLOR SYSTEM

Main text: #E5E7EB
Dim body: #CBD5E1
Keyword: #22C55E (Green)
Secondary: #38BDF8 (Blue)
Highlight: #FACC15 (Yellow)
Error/Wrong: #EF4444 (Red)

RULE: Maximum 2 accent colors per slide

2.6 SPACING SYSTEM

Left margin: 100px
Right margin: 100px
Top spacing (below header): 100px
Title-to-content gap: 32px
Bullet gap: 18px minimum
Card padding: 32px minimum

Use generous negative space — never overcrowd

2.7 IMAGE / VISUAL RULES

- Realistic images only (real classrooms, business, accounting, natural lighting)
- No AI-looking illustrations
- No cartoon icons
- No overdecorated visuals
- All images must stay inside defined boundary zones
- Add soft shadow to all images

2.8 YOUTUBE + MOBILE OPTIMIZATION

- All text readable on mobile and compressed YouTube video
- Avoid long paragraphs on slides
- Avoid low-contrast gray-on-dark combinations
- Visual hierarchy must be obvious within 2 seconds
- Slides must survive YouTube compression artifacts

==========
3. TEMPLATE SYSTEM (T1–T8)
==========

T1 — CORE THEORY (Focus Mode)

PURPOSE:

Definitions, core theory, fundamental explanation, concept introduction.

LAYOUT:
- Title at top-left
- One vertical green line below title — 4px width
- Max 3 bullets, aligned to the right of the green line
- First word of each bullet: Bold + #22C55E
- Remaining text: #CBD5E1 (dim white)

WHEN TO USE:
Single central concept, definitions, foundational rules.

KEY RULES:
- Keyword-led bullets only
- Green line acts as focus anchor, not decoration
- No paragraph-like text
- Keep slide calm and non-decorative
- Background: T1 locked

T2 — CONCEPT + EXAMPLE (Depth Layer)

PURPOSE:
Explain a concept and immediately support it with a real-life example.

LAYOUT:
- 60/40 horizontal split
- Left (60%): Concept — flat bullets, max 4
- Right (40%): Example box — 32px padding, slightly lighter background, soft shadow, vertically centered

WHEN TO USE:
Any concept that becomes clearer with a practical scenario.

KEY RULES:
- Left = theory; Right = real-life classroom/business/accounting scenario
- Example clarifies the concept — does not repeat it
- Keep example box concise
- Background: T2 locked

T3 — COMPARISON (Visual Contrast)

PURPOSE:
Wrong vs right, differences, misconception correction, exam mistakes.

LAYOUT:
- 50/50 horizontal split
- Left panel: "Incorrect" — light red tint, ✕ icons
- Right panel: "Correct" — light green tint, ✔ icons
- Equal number of points per side, horizontally aligned
- Panel titles clearly visible at top of each side

WHEN TO USE:
Contrasting concepts; correcting common student errors.

KEY RULES:
- Mirrored structure for instant clarity
- "Correct" side must feel more visually resolved
- Do not overload either side
- Background: T3 locked

T4 — GRID (Structured Overview)

PURPOSE:

Types, features, categories, components, structured overview.

LAYOUT:

- 3 equal cards in one horizontal row
- Each card: Big faded number label (01/02/03) → Card title → Max 2-line description
- Cards evenly spaced; typography identical across all 3

WHEN TO USE:

Grouped concepts belonging to the same classification.

KEY RULES:

- Keep descriptions concise
- Card titles must be strong and scannable
- No long explanations inside cards
- Background: T4 locked

T5 — IMAGE + THEORY (Human Connect)

PURPOSE:

Concepts that benefit from realistic visual context.

LAYOUT:

- 50/50 horizontal split
- Left (50%): Max 4 text bullets
- Right (50%): Centered realistic image with soft shadow, inside boundary

WHEN TO USE:
Concepts with a strong real-world or human visual dimension.

KEY RULES:
- Left explains; right visually supports
- Image must be realistic, premium, relevant — not generic stock art
- No AI-looking visuals
- Background: T5 locked

T6 — PROCESS (Flow Experience)

PURPOSE:
Steps, sequences, timelines, procedures, flow explanations.

LAYOUT:
- One horizontal process line across the slide
- Max 5 steps
- Evenly spaced with mandatory arrow connectors
- Active step: full opacity; subsequent steps: slightly faded
- Step labels: short, highly readable

WHEN TO USE:
Accounting methods, economics chains, business flows, ordered procedures.

KEY RULES:
- Each step must feel part of one unified system
- Directional flow visually obvious instantly
- Compact step titles — no long sentences
- Background: T6 locked

T7 — QUESTION (Attention Trigger)

PURPOSE:
MCQ, practice question, engagement pause, recall trigger, revision.

LAYOUT:
- Symmetrical centered composition
- Top: Centered large glowing question
- Below: 2×2 grid — 4 equal option boxes labeled A, B, C, D

WHEN TO USE:
Mid-deck classroom pause; exam practice; student recall checks.

KEY RULES:
- Question must be crisp and direct
- Options short and scannable
- Slide acts as active teaching pause
- Background: T7 locked

T8 — HIGHLIGHT / CTA (Pattern Break)

PURPOSE:
Summary, final takeaway, exam memory point, call to action, emotional emphasis.

LAYOUT:
- One centered card only
- Center-aligned composition

- Dark orange color shift for emphasis
- Minimal text + bold typography + generous negative space

WHEN TO USE:
End of topic, exam reminders, memorable one-liners, closing slides.

KEY RULES:
- Text must be minimal and strong
- No crowding in the card
- Must feel like a visual pattern break from the rest of the deck
- Background: T8 locked

==========
4. EXECUTION SYSTEM
==========

4.1 STEP-BY-STEP SLIDE GENERATION LOGIC

STEP 1 — TOPIC BREAKDOWN
- Break the topic into discrete micro-concepts
- Each micro-concept = exactly 1 slide
- Maintain logical teaching flow: simple → deeper understanding

STEP 2 — TEMPLATE SELECTION (STRICT MATCHING LOGIC)
Definition / concept explanation → T1
Concept + real-life example → T2
Difference / wrong vs right → T3
Types / features / classification → T4

Visual explanation with image → T5
Steps / sequence / flow / process → T6
Practice / MCQ / engagement → T7
Summary / takeaway / CTA / anchor → T8

TEACHING FLOW PRIORITY:
T1 (Concept) → T2/T3 (Explain/Compare) → T4/T6 (Structure/Flow)
→ T5 (Visual) → T7 (Engage) → T8 (Close)
Vary slide density: quiet → active → quiet

STEP 3 — CONTENT RULES
- Max 4 bullets per slide (T1: max 3)
- Max 8 words per bullet (preferred)
- First word of each bullet acts as the keyword
- No paragraph blocks unless template explicitly needs a scenario
- Content must sound teacher-ready, not AI-generic
- No generic filler text

STEP 4 — QUALITY CONTROL CHECKLIST (Run before every output)
☐ Correct template selected for each slide's content type
☐ Correct template-locked background applied
☐ Camera safe zone (bottom-right 300×300px) is completely empty
☐ No overcrowded layouts
☐ No more than 2 accent colors per slide
☐ Text readable on mobile and YouTube-compressed video
☐ Visual hierarchy obvious within 2 seconds
☐ Images (if used) are realistic and non-AI-looking
☐ Bullets are compact, not paragraph-like
☐ Background does not overpower content
☐ Slides feel premium, not AI-generic

==========
5. OUTPUT FORMAT RULES
==========

USE ONLY THIS STRUCTURE. NO EXTRA TEXT OUTSIDE THIS FORMAT.

=== DECK PLAN ===
1. [Micro-concept label] → T[#] + CG[#]
2. [Micro-concept label] → T[#] + CG[#]
...

=== SLIDES ===

SLIDE [N]
Template: T[#]
Background: [Template background name / base hex]
Title: [Slide title]
Content:
• [Keyword] — [rest of bullet, max 8 words]
• [Keyword] — [rest of bullet]
• [Keyword] — [rest of bullet]

SLIDE [N+1]
Template: T[#]
Background: [Template background name]
Title: [Slide title]
Content:
• ...

[Continue in same format]

STRICT OUTPUT RULES:
- No explanation
- No notes or commentary outside slides
- No design reasoning
- Only DECK PLAN + SLIDES block

==========
6. COLOR THEMES / SYSTEM EXTENSIONS (CG1–CG8)
==========

These are subject/context-based visual identity themes. Pair with T1–T8
template backgrounds for complete slide identity.

CG1 — DEFAULT TEACHING
Background: #1F2A38
Heading: #F1F5F9
Body: #D1D5DB
Keyword: #22C55E
Highlight: #F4B400
Accent Line: #38BDF8
Important: #F97316
Card BG: #273549
Table Header: #334155
Table Border: #475569
Image Overlay: rgba(0,0,0,0.4)

CG2 — ECONOMICS
Background: #243447
Heading: #EAF2FF

Body: #C9D6E2
Keyword: #4ADE80
Highlight: #FACC15
Accent Line: #60A5FA
Important: #FB923C
Card BG: #2E4156

SUBJECT → CG THEME QUICK MAPPING:
Default / General → CG1
Economics → CG2
Business Studies → CG3
Premium Production → CG4

Accountancy/Numericals → CG5
Theory-Heavy Topics → CG6
Engagement/MCQ Slides → CG7
Long Lecture Decks → CG8

==========
7. MASTER COMMAND (CLEANED)
==========

Paste this entire block into NotebookLM chat to begin generating slides.

You are a STRICT, DETERMINISTIC SLIDE GENERATION ENGINE for Commerce Gyan.
Your job is NOT to design creatively.
Your job is to EXECUTE a SYSTEM with precision.
No deviation is allowed.

You MUST follow ALL of the following in order:
1. GLOBAL DESIGN SYSTEM (header, camera safe zone, background, typography, color, spacing, image rules)
2. TEMPLATE-LOCKED BACKGROUNDS (each template uses its designated background only)
3. EXECUTION SYSTEM (breakdown → template selection → content rules → quality control)
4. OUTPUT FORMAT (DECK PLAN block + SLIDES block only — no commentary)

GENERATION INPUT:
Topic: [ENTER TOPIC]
Class: [11 / 12]

Subject: [Accountancy / Economics / Business Studies / Statistics]
Theme: [CG1–CG8]
Number of Slides: [ENTER NUMBER]

STRICT RULE:
- No explanation
- No extra text
- Only DECK PLAN + SLIDES
- Follow system exactly
